

Your mobility needs – our solutions. Smart combinations.

We'd be happy to advise you.

**Benefit from the central position of your company in the transport system and be inspired by our mobility offers.**

For staff travel to work, business travel or customer mobility – we provide holistic and comprehensive consulting and create tailor-made offers for your company. We provide an optimal combination of transport modes from the first to the last mile. For sustainable, affordable and smart mobility at your company.

## Our offers.

### **Services.**

- Mobility consulting: an initial analysis of your mobility needs.
- Commute analysis: get to know road and rail options.
- Online survey on mobility: how do people travel and why?
- Rethink fringe benefits: finance use of public transport rather than free parking?
- Parking problems now a thing of the past – thanks to new approaches to mobility.

### **Ideas about combined mobility.**

- Smart combinations of rail and road – with an individual mobility package.
- Park at the station, pay without cash using a SwissPass and enjoy a relaxed train journey to your destination.
- Bike parking at the station: pedal your way to the train.
- Sharing offers: Mobility Carsharing, bike sharing.

### **Online ticket purchase for companies.**

- No more settling expenses, overview of travel costs at any time:  
[sbb.ch/en/business](https://sbb.ch/en/business)

### **Rethink.**

- Work Smart: avoid peak times and travel relaxed:  
[work-smart-initiative.ch](https://work-smart-initiative.ch) (in German and French)
